

OxyPure: The Most Advanced SMART Air Purifier for a Reason

Advanced 4-Filter System

Includes a stainless-steel Pre-Filter that is reusable for up to 20 years, a Bio-Guard Filter that will last up to 20 years, an Ozone Emission Removal Filter that also lasts up to 20 years, and a combination HEPA/Activated Carbon Filter (replace 12 monthly).

Exceptional Clean Air Delivery Rate CADR

Tobacco Smoke: 332; Dust: 346; Pollen: 369. Anything over 300 earns a certification from the Association of Home Appliance Manufacturers (AHAM).

AHAM VERIFIDE Independently Tested. Consumer Trusted.

AIR CLEANER SUGGESTED CLOSED ROOM SIZE
515 SQUARE FEET

CLEAN AIR DELIVERY RATE & ENERGY TESTED
The higher the CADR numbers, the faster the units clean the air

| TOBACCO SMOKE | DUST | POLLEN |
|---------------|------------|------------|
| 332 | 346 | 369 |

Portable air cleaners are most effective in rooms where all doors and windows are closed.

3 Certifications

In addition to AHAM, the OxyPure™ has received certifications from the California Air Review Board (CARB), and the Environmental Protection Agency (Energy Star).

This air cleaner complies with the federal ozone emissions limit.

ARB CERTIFIED

360-Degree Air Intake

As opposed to other air purifiers that have to be set against a wall because they only draw air from one or two sides, you're free to place the OxyPure™ wherever you want for maximum effect.

Highly Energy Efficient

The OxyPure™ can be set to remain off until it detects poor air quality. Then, once it does, it automatically engages the highest fan level (6) until the air improves and it shuts off again. This function, unique to the NuWave OxyPure™, is a huge energy-saver.

Eliminates All Bacteria

The OxyPure™ kills over 99.5% of bacteria and viruses within 2 hours of detection, eliminating these potentially deadly contaminants as opposed to simply trapping them alive until the next filter cleanse.

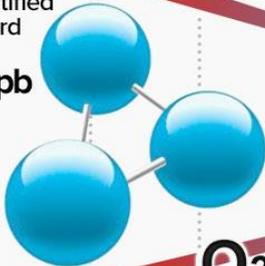

OxyPure™: Taking Out the Ozone

Ground level ozone (from the combination of VOCs or nitrogen oxides with sunlight or from electric motors) damages the respiratory tract. The OxyPure™'s Ozone filter lowers ozone concentrations to 1ppb, 70 times lower than EPA limits and is CARB-Certified.
