

SeccoProf EL 28L Electronic Dehumidifier

Italian Design, professional quality stainless steel body, portable light commercial dehumidifier. Helps with control of moisture to prevent mould out breaks and condensation problems.

Key Features at a glance

- Now with electronic digital control. 30-90%RH selectable with continuous or Laundry mode.
- Can run in very low temperatures as low as 2degC ! Using the latest electronic logic and hot gas injection.
- Large moisture removal capacity of 28L/day @32degC 80%RH.
- Now with "SuperDry" function which activates for continuous faster dehumidification.
- Auto Restart Function, when power returns after a blackout the unit remembers the last setting.
- Features built in Temp/Humidity meter for measuring actual ambient levels.

Specifications

28L SeccoProf EL Commercial dehumidifier

Model	SeccoProf 28EL
Area handling M ³	40-250m ³
Water Removal Max (32C/80%RH)	28 Litres/Day
AHAM rating @ 27°C/60%rh	15L/day
Adjustable Humidity Range	Digital 30-90%RH in 5%increments
Operating Temperature Range	2 - 35 Celsius Less moisture retrieved at lower temperatures
Noise Rating dB	47 dB @ 1 metre
Defrost Type	Auto Defrost cycle for low temp use
Refrigerant Type	R134A .33kg
Rated Air Flow	High 340m ³ /hr
Housing	Stainless Steel
Water tank or Continuous Drain	Large 10 Litre
Auto off when tank full	Yes
Warranty (Manufacturing)	2 years RTB ...warranty sheet and manual supplied

Power

Power Supply	220V-240V Single Phase Power
Power Consumption	550W 3.6A
Running Costs/10hrs Avg.	\$1.62
Auto Restart	Yes

Size and Weight

Size L x W x H mm	435x310x640
Weight	28kg
